BUILDINGS REPRESENT COMPANIES ...

... and reflect the corporate philosophy.

Our services lie in the progressive realisation of sophisticated ideas in form, function and perfection. We guarantee competent service from consultation to the identification of alternatives and customised solutions.

IB_CON creates customised steel halls. From planning to completion completion, we offer you well thought-out solutions for modern production production, storage and sales facilities.

Decisive advantages for your company are:

IB_CON acts quickly, flexibly and unconventionally.

IB_CON constructs industrial and commercial buildings with innovative architecture.

IB_CON always places the highest demands on planning, materials and execution.

Quality and reliability create trust and long-term customer customer loyalty. We are committed to this responsibility.

We are enthusiastic about realising extraordinary ideas and visions individually and thus contributing to your success.

HOW TO CREATE NEW SPACE

We support you in the realisation of your building project and accompany the transition from draft and design to materialisation.

We advise you on all issues. This includes both the use of proven product systems as well as the possibility of property-specific customised solutions.

Our consultations are based on an extensive sampling service with original materials. A visualisation of the products should give you the opportunity to check the interaction of our proposals in the context of the overall object.

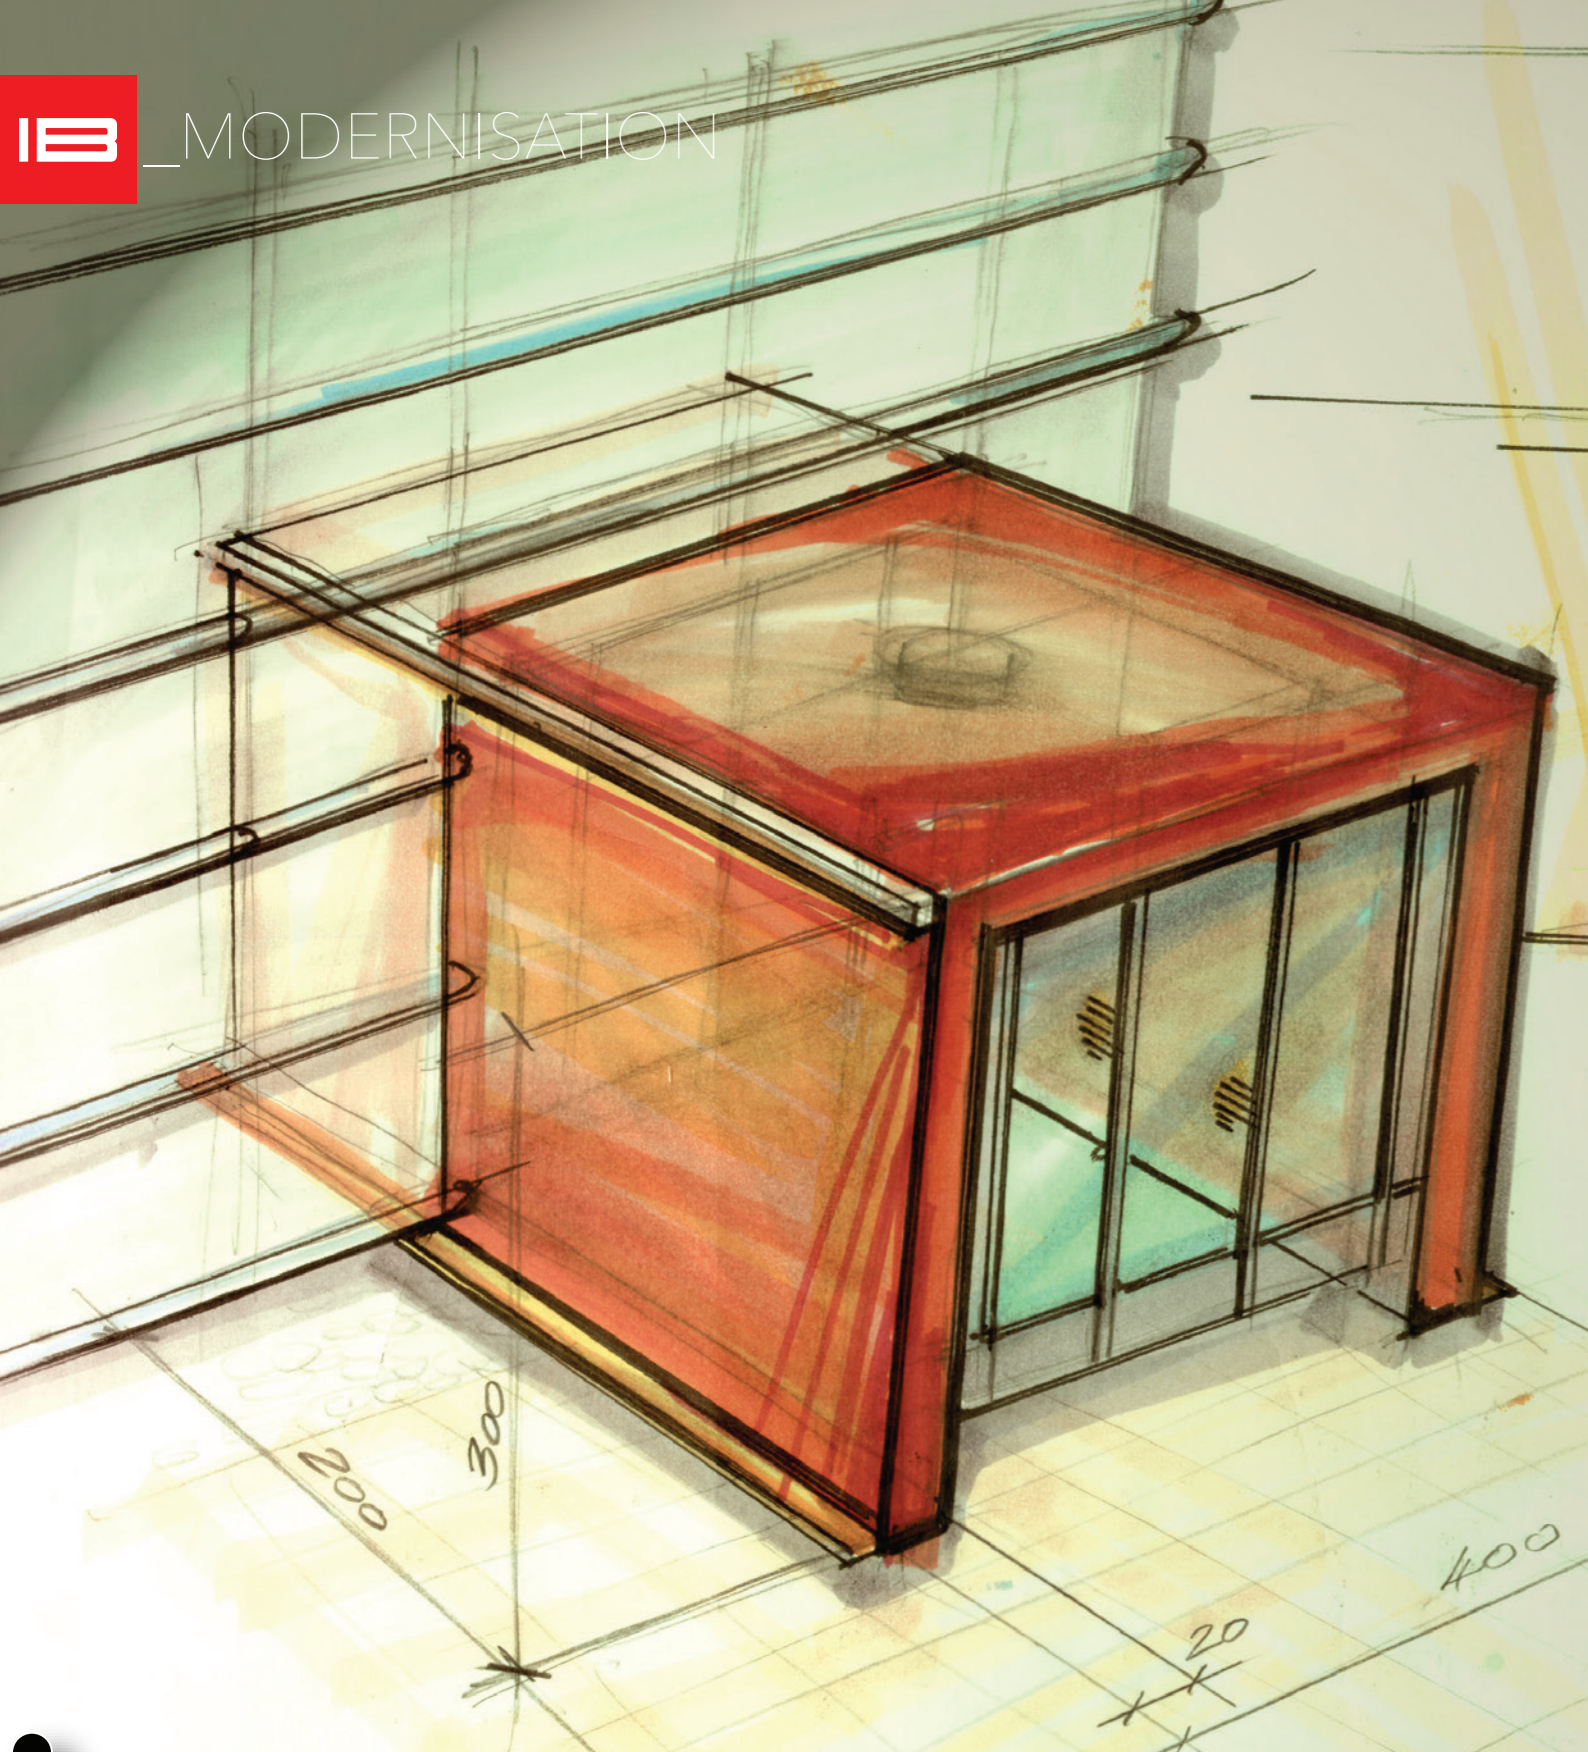

Of course, you will also receive technical support in the form of property-related specifications and detailed drawings.

WE MODERNISE YOUR PORTFOLIO

Modernisation and expansion of production, sales or storage space does not automatically have to mean relocation or even a complete new build mean relocation or even a completely new building:

IB_CON makes sensible use of the advantages and possibilities of

modern steel construction and offers additional practical and innovative solutions alongside extensions and other additions.

IB_CON is literally building a new hall around the existing building. This means that production processes in the existing hall are not affected.

WE WILL NOT LEAVE YOU OUT IN THE RAIN

IB_CON Flat roofs save space and can be a cost-effective alternative. However, due to their low roof pitch, they must be considered a special construction.

With the correct and object-related planning as well as the selection of high-quality materials and professional execution, a long-lasting product is created.

Surface protection with a gravel roof structure or greenery also increases the service life and makes a significant contribution to the environment.

The **IB_CON** company can draw on professional experience in flat roof construction. This enables us to realise a product that you can rely on for decades.

PERFORMANCE SPECTRUM FLAT ROOF

- _ Project planning _ Project support
- _ Project realisation _ Inspection and maintenance work _ Dome light systems
- _ Retrofitting of built-in parts
- _ Safety systems and accessories
- _ Lightning protection systems

THE FACADE IS YOUR COMPANY'S CALLING CARD

IB_CON GmbH creates with passion - with people and for people. Our childlike curiosity and enthusiasm for what we create, constantly drives us to take on new challenges. We are able to set trends, which makes us an innovative provider of original and complete solutions in the field of façade cladding and sound insulation systems.

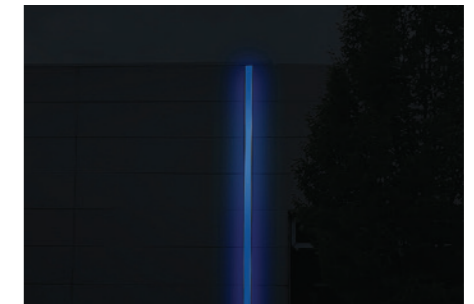

IB_CON GmbH utilises the

possibilities of dynamic shapes, new and interesting perspectives and the quality of materials for modern and attractive facades.

The various facade systems, with their exceptional technical properties and their full visual radiance, make a playful contribution to our idea of facade design. The different facade systems contribute to our idea of facade design.

PERFORMANCE SPECTRUM FACADES

- _ Project planning _ Project support
- _ Project realisation _ Elements/cassettes
- _ Metal façades _ Colours/coatings
- _ Security systems and accessories

- _ Agricultural buildings_ Industrial halls
- _ Other steel halls

_ BUILDING PARTNER

FROM THE LARGE CRANE SYSTEM TO WASTEWATER TREATMENT

The expertise of **IB_CON** is all-encompassing. We are a provider of all services in almost all sectors and industries.

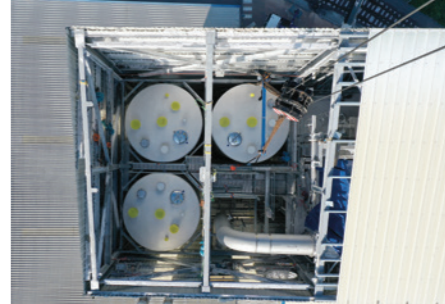

Whether large crane systems in outdoor areas or complicated assembly of overhead travelling cranes in existing or new new buildings - we have never

reached the limits of what is feasible. We have also successfully completed assembly work at a height of 60 metres in the past.

IB_CON relies on years of experience and expertise in all areas of industrial assembly, whether underground or at lofty heights.

PERFORMANCE SPECTRUM ASSEMBLY

- _ External and internal crane systems
- _ Container assembly _ Production systems
- _ Rail systems _ Drainage and waste water systems _ Waste water systems _ Industrial photovoltaics _ Heat recovery ...

Building partner

INNOVATIVE AND FUTURE-PROOF

IB_CON advises you on how you can construct a functional industrial building that is both sustainable and economical.

The construction industry is already a leading sector in terms of sustainability and innovation.

With the same or even optimised functionality, the following benefits are achieved: weight is saved and less material and material and energy.

IB_CON is a pioneer in the use of new and innovative possibilities in the realisation of its commercial construction projects.

INNOVATION POTENTIAL ON THE BUILDING

- _ Lightweight instead of solid
- _ Flexible instead of static
- _ Less instead of more
- _ Fast instead of slow
